Wherever possible we buy from local farmers, growers & individual producers. We love to know the names & faces behind every small business that supplies us & are proud of the relationships we have with them. Of course, a small minority of products will still be imported, but typically these will make up just a small percentage of the fresh, tasty & locally sourced food we always aim to create from our kitchen. Please speak to a member of the team if you have any food allergies or intolerances before you place your order. As we have so many ingredients in our kitchen, we cannot guarantee that any dish is allergen free.
